

Whatever your mind fancies

Who Am I ?

I'm an art student in the need of money. Life is hard for everyone, suppose. Especially when you have to feed yourself and purchase your stuff...

What is my philosophy ?

I don't like to be ripped of, so I won't even be trying to fool you, trust me... I consider myself as a humble worker who knows the price of money.

What do I draw ?

Anything i can google... If anything comes to your mind, If I can find some pictures of it, I will be able to do it for you in the way you've imagined.

How does the trade works ?

1- talking over the net, or mailing me, you describe what you want.
2- I tell you a price, to which you must add half shipping from France
3- I'm drawing a sketch, which I show to you. If you like it, we keep going on

4-I draw the whole picture with all required features then take a shot which, once more, I show you.

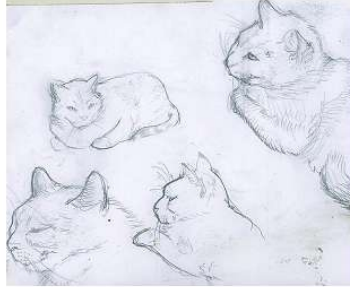

5-Then you send me the money asked

6-Once I get it, I send the drawing.

Note that you don't pay for something you didn't see and you don't agree with.

Am I that good ?

I don't clame beeing the best in anything. But there is a few things I can do. Here is a smal selection :

How much does it cost ?

Prices shown have been calculated in May 2005. They are shown as an approximation, since price will be calculated with the total in euros converted in the appropriate currency
